Job Posting Software Developer

Vari Tech Systems, a sales-driven company, is looking for a team player in the area of software development who has a wide skill set including software development, testing and analysis. Reporting to the Vice President of Business Development, the ideal candidate is self-motivated and passionate about making an impact.

A pioneer in the area of web-based management technology, Vari Tech Systems develops software products for the growing childcare community. Vari Tech stands among the top three providers to the childcare community in Canada.

Position

The Software Developer is responsible for creating software solutions at Vari Tech Systems. The successful candidate is self-motivated and is actively developing skills, knowledge and abilities that are relevant to the role of a software developer. As a key member of a dynamic team, the software developer will also be responsible for co-developing and implementing project plans and project management techniques. The team members may include: project managers, graphic artists, systems analysts and sales and marketing professionals.

Experience

The successful candidate will have a post-secondary degree in software development and a minimum two years work experience. Preference may be given to candidates with a PMP designation of certification, experience with Photoshop and/or knowledge of the childcare industry.

Vari Tech Systems offers a competitive compensation package. If you would like to be part of an entrepreneurial team and work in an innovative and rewarding environment, please forward your résumé by September 30, 2009 in confidence to the attention of Human Resource.

To view this and other employment opportunities online, visit us at www.childcarepro.ca and select the "About Us" tab and click on the "Employment Opportunities" from the list of quick links on the left.

We thank all applicants for their interest, but only those selected for an interview will be contacted.
